

Training For How To Locate Providers or Pharmacies Using The BEN-E-LECT Website

On any plan, it is important to stay In-Network when accessing care. Using In-Network or PPO Providers will always keep your out of pocket cost at its lowest and will make accessing care much easier.

It is the member's personal responsibility to make sure their Provider is an In-Network or PPO Provider. The surest way is to ask your Provider, as Providers may join or terminate their participation in a network at any time.

In addition, BEN-E-LECT makes this easy with its web-based Provider Locator.

- Go to www.benelect.com
- Click on the button labeled "Provider/Pharmacy Locator"
- Select the type of Provider you wish to locate: Medical, Dental, or Pharmacy
- Follow the Prompts from there

As we stated earlier, it is the member's responsibility to confirm that their Provider is a PPO Provider to insure the highest level of benefit. If you ever need help locating a Provider or navigating our website please give the BEN-E-LECT Customer Service Department a call.

One Final Note: BEN-E-LECT understands that insurance can be confusing and navigating a website can be frustrating so please remember to contact our Customer Service Department whenever you have a question.
